

Contec HydroPure SATWIPES System

Stabilised 6% hydrogen peroxide blended with purified water and Amplitude Theta polyester/cellulose wipes

Contec HydroPure is a blend of 6% hydrogen peroxide and purified water. Efficacious against bacteria, fungi, moulds and yeasts, Contec HydroPure leaves little-to-no residue making it ideal for use in critical areas.

Contec HydroPure is provided as a point-of-use SATWIPES system. Each double bagged pack contains a canister of 100 x 54gsm Amplitude Theta polyester/cellulose dry wipes and a 500ml capped bottle of Contec HydroPure.

Simply add 500ml of HydroPure to the dry roll, 5 mins before use, and use the impregnated wipes within 7 days.

Contec HydroPure is 0.2 micron filtered, and filled in a Grade A environment. The sterile product is filtered into pre-irradiated components. The dry wipe canister is irradiated at no less than 25 kGy.

Contec's EU BPR product dossier for all products containing 6% Hydrogen Peroxide has received Union Authorisation from the ECHA Biocidal Products Committee. All Contec's Hydrogen Peroxide products are authorised for sale in all EU countries. The Authorisation Number for the product family is EU-0027735-0000. Contec's HydroPure dossier for the GB BPR has been submitted, which allows the product to remain on the market in UK, pending authorisation.

Features	Benefit
Impregnated wipes at point-of-use	Convenient and controlled application of disinfectant
Hydrogen Peroxide breaks down to water & oxygen	- Very low residue so suitable for critical areas - Saves time since no residue removal required
Filtered to 0.2 microns in a Grade B cleanroom	Ensures the product is free from contamination and particulates
100 polyester / cellulose wipes in a canister	- Ideal for a Grade A / B area - Convenient to use and allows controlled application
Provided sterile	Suitable for Grade A and B cleanrooms
Not classed as corrosive	Good operator acceptability as low odour and hazard
Double bagged in linear tear packaging	Each bag is easy to open even when wearing gloves

Product Application

Pour 500ml Contec HydroPure into the centre of the wipe roll. Close lid and invert cannister multiple times until all fluid is absorbed into the wipes, this should take less than 5 minutes. Once saturated with Contec HydroPure the wipes are suitable for disinfection.

Wipes should be used within 7 days and then disposed of. There is space to write the saturation date on the front of the canister.

Part No.	Description	Size	Packaging
SSWC16HP	Contec Sterile Amplitude Theta SATWIPES System For use with Contec Sterile HydroPure	150 x 230mm	100 wipes per canister 10 canisters per case
